WHAT IF...
...YOU COULD CREATE LASTING BEAUTY?

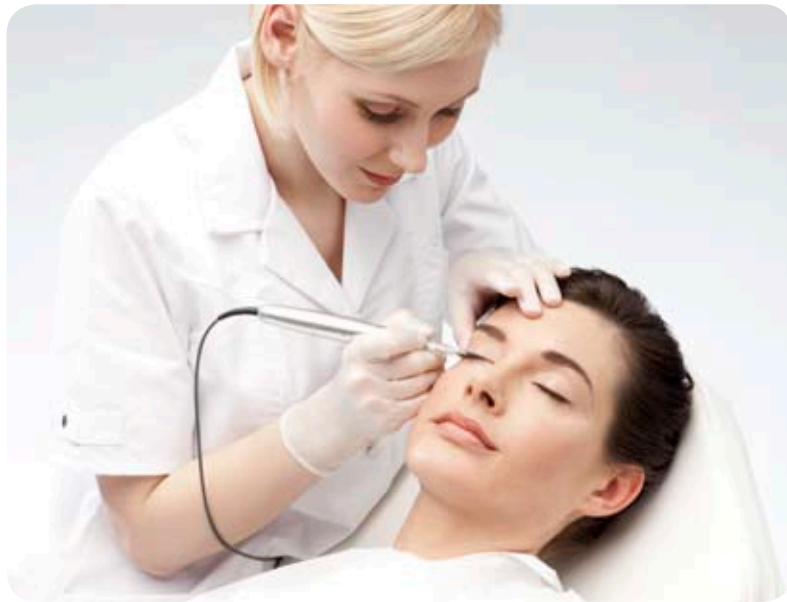

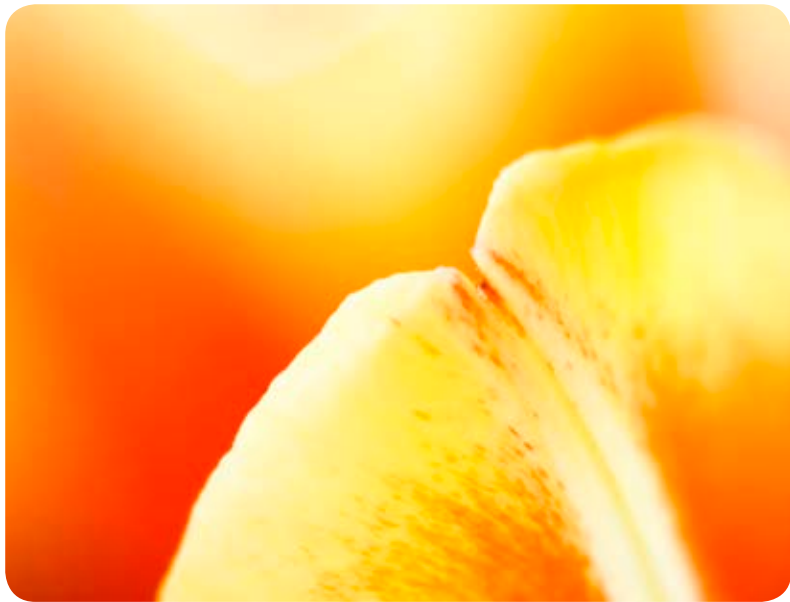

WHAT IF...
...YOU HAD THE POWER TO ENHANCE
THE WORK OF NATURE?

Woplat

WHAT IF...
...YOU HAD A MAGIC BEAUTY WAND?

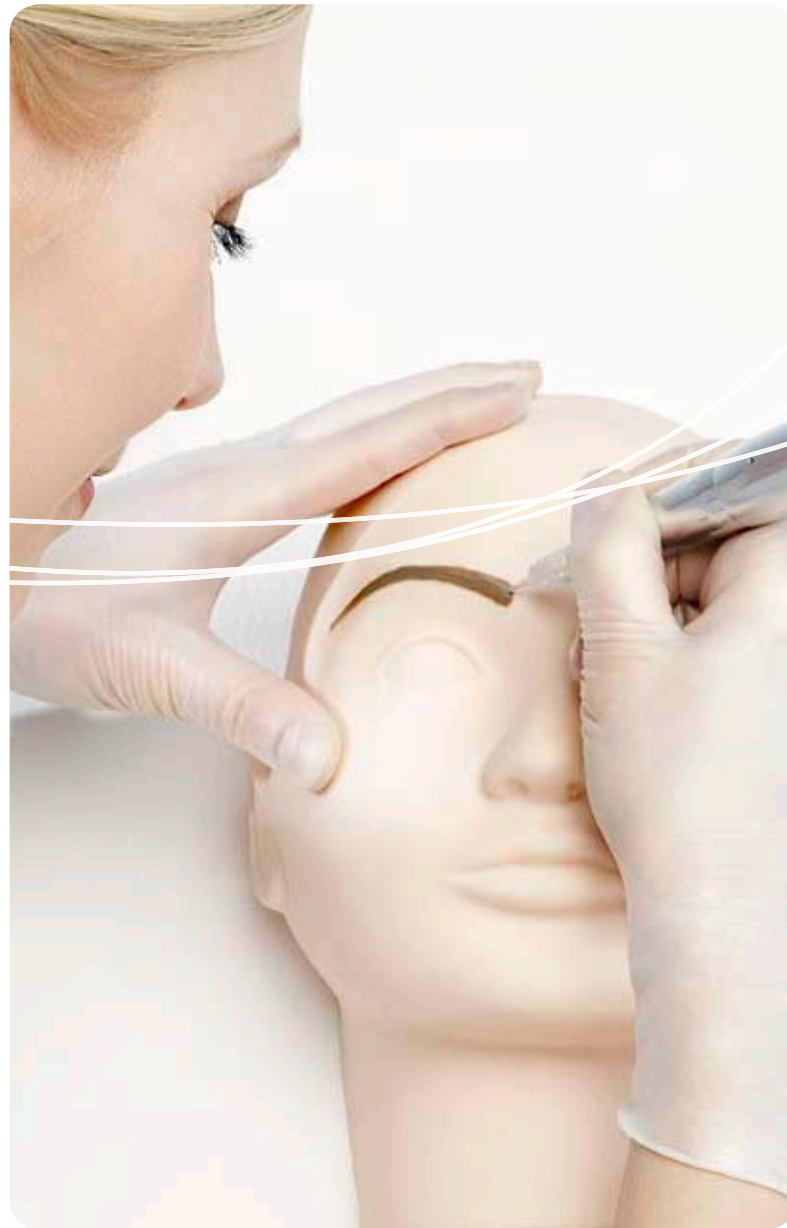

INTRODUCING AMIEA YOUR PARTNER IN BEAUTY

With micropigmentation, you give your clients the gift of lasting beauty. amiea empowers you to create that beauty. We've developed a system that is so easy to use it will almost feel like magic. A cosmetic pen that works like a natural extension of your hand. Hygienic

and safe disposable tips you just twist on and off. A user-friendly control unit that places the power of modern technology at your fingertips. A full range of top-quality colors for breathtakingly naturalistic results. And a curriculum of training courses, workshops, and seminars to hone your skills at any level. amiea truly is your partner in beauty, every step of the way. Let's do magic together!

DISCOVER YOUR MAGIC TOUCH

Did you ever wonder whether you had what it takes to perform flawless micropigmentation treatments? If you are a makeup artist, beautician, or cosmetologist, you already know many of the basics of the pigmentist's craft. amiea helps you develop these skills – with numerous training formats that suit your knowledge level, time budget, and goals. Hands-on training for all levels in a friendly and collegial atmosphere makes it easy to build on your existing expertise and experience. Plus, you'll meet colleagues, exchange experiences, learn from experts, and keep up to date on the latest industry trends.

THE MAGIC WAND AT A GLANCE:

- easily adjustable needle depth
- ergonomic design
- part of the clean, simple creatip system
- steady grip and workflow
- long lifespan
- quality certificates ISO 9001, DIN EN ISO 13485, and CE

MEET YOUR MAGIC WAND

Micropigmentation with the aimea cosmetic pen is like painting on the most precious canvas imaginable. The ergonomically designed pen fits your hand perfectly. Compact, yet lightweight, it lets you work with extreme precision and focus on your creativity. The elegance of

the design is strictly functional: when you hold this ingenious tool in your hand, feeling the steady grip and gentle flow, you will know that you're entirely in control of your work. But the true magic of the pen is in its ultra-simple, hygienic creatip system, which lets you switch between different tips as easily as twisting on a pen cap.

THE CREATIP SYSTEM AT A GLANCE:

- high-precision needle points
- a wide range of needle tips for every application
- easy to use, safe, and sterile
- gentle treatment and fast healing process
- integrated one-way modules, sealed off with a hygiene membrane
- meets highest safety and hygiene standards
- quality certificates ISO 9001, DIN EN ISO 13485, and CE

IT'S ALL IN THE TIP

From the finest line to broader shadings – amiea's wide range of needle shapes and tips gives you the right tool for every application. With the patented* creatip system, you can switch easily between colors and tip shapes. Just remove the module, twist on the new one, and you're set to go – without ever needing to touch the needle. An ingenious membrane seals off the all-in-one disposable tip, keeping fluids and needle hygienically separated from the pen handle. Micropigmentation has never been this simple!

* Patents: US 6,505,530; US 6,345,553; DE 299 19 199; EP 1 495 782; EP 1 618 915; EP 1 882 492; EP 1 743 673; additional patents pending

THE CONTROL UNIT AT A GLANCE:

- state-of-the-art technology
- with microprocessor for high-precision control
- even, regular needle frequency for optimal color penetration
- easy-to-use, intuitive controls
- hygienic and easy to clean
- quality certificates ISO 9001, DIN EN ISO 13485, and CE

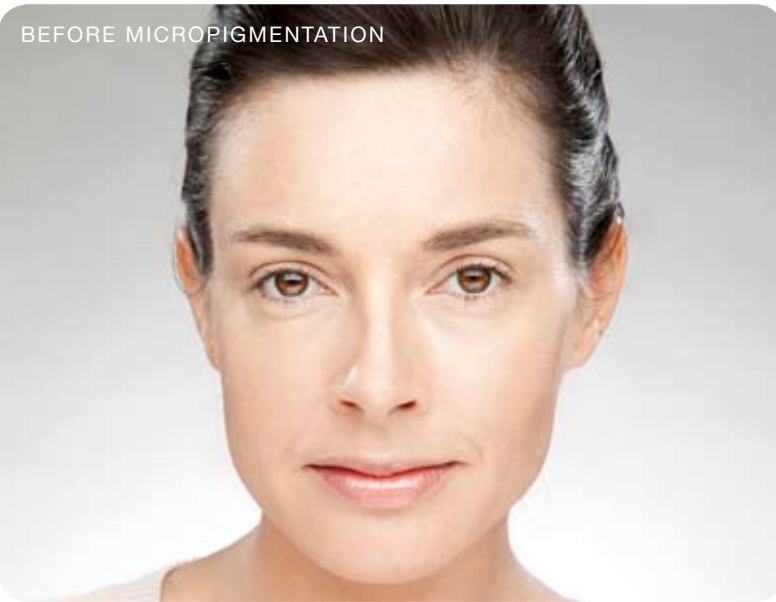

EVERYTHING UNDER CONTROL

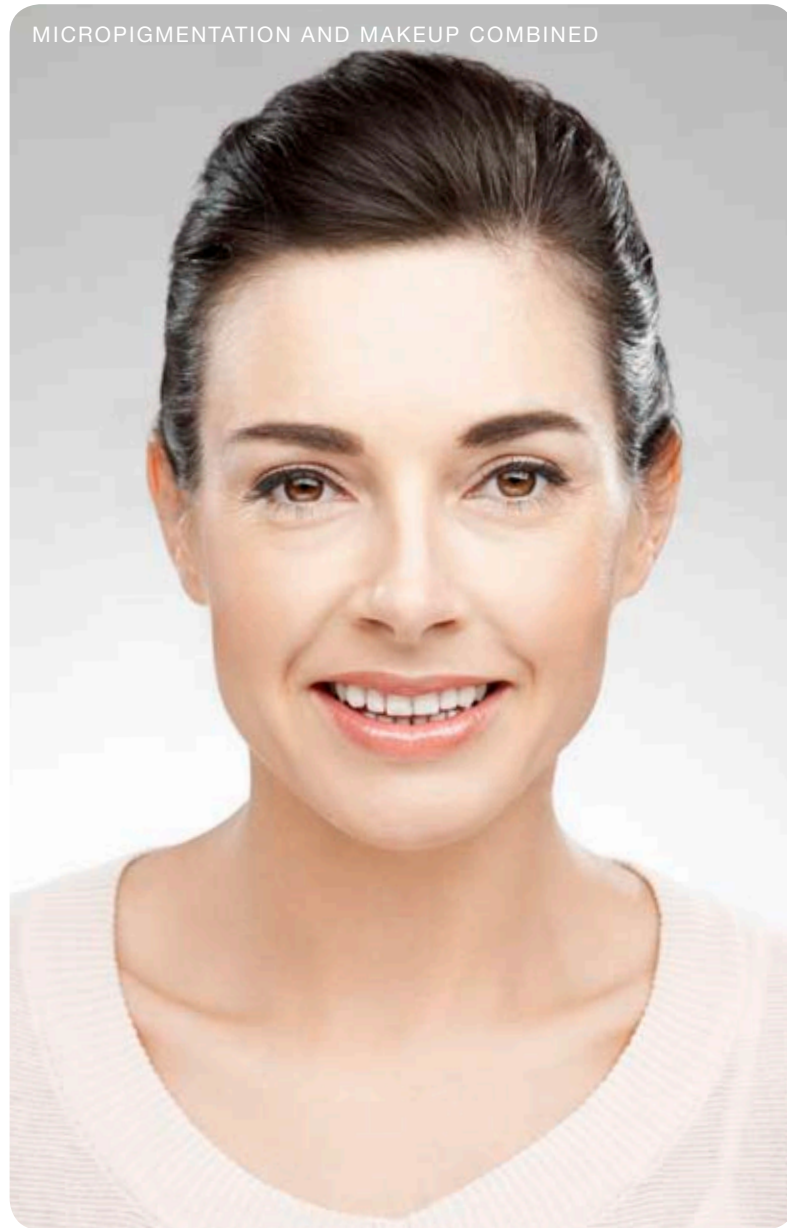

Powerful, user-friendly, foolproof: the amiea control unit puts the full power of amiea technology in your hands. The desktop unit with its intuitive controls gives you all the options you need in one sleek body. Light and compact, your amiea linelle goes with you wherever you want, and its hygienic surface is extremely easy to clean.

No matter which amiea linelle model you choose – you can be sure that it makes your work a lot easier. Whether you opt for the basic version or want to work with more than one cosmetic pen simultaneously, whether you prefer the soft-touch buttons of the desktop unit or like to keep your hands free with the convenient foot pedal: each amiea control unit is simple to use, reliable, unobtrusive, and beautifully designed.

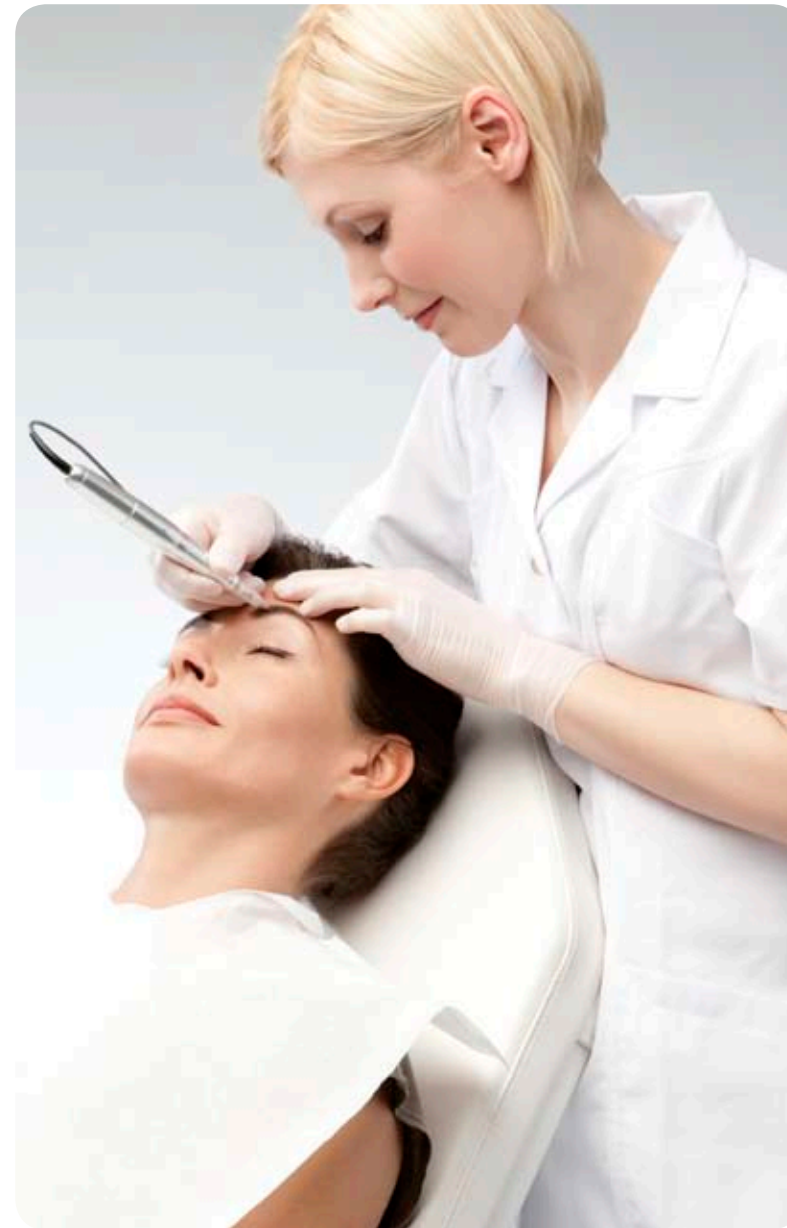

BEFORE MICROPIGMENTATION

MICROPIGMENTATION AND MAKEUP COMBINED

AFTER MICROPIGMENTATION

PERFECTION AT YOUR FINGERTIPS

Cover blemishes, highlight eyebrows, enhance lips – as a beautician makeup artist, or cosmetician, you know what makes faces beautiful. amiea gives you the power to create a beauty that lasts. Thanks to our high-precision needle tips, micropigmentation with amiea is both completely hygienic and very gentle, causing only minimal skin trauma and discomfort and allowing for a fast healing process. Your clients trust you with their looks – you can trust amiea to help you deliver lasting, naturalistic results. They'll love the way you make them beautiful!

NATURE'S PALETTE

amiea offers you a huge selection of high-quality Derma Safe colors for eyebrows, eyeliner, lip lines, lip shades, skin tones, etc. All colors can be mixed, allowing you to create a virtually limitless palette of customized hues that match your client's color type. amiea Derma Safe colors are extremely gentle and stable. They contain no toxic azo dyes, no added preservatives, and no traces of toxic heavy metals.

Plus, each color has passed extensive, exacting DERMATEST® allergy tests to ensure your client's safety and wellbeing. A perfect balance of binder and pigments, amiea Derma Safe colors are ideally suited for micropigmentation with the amiea creatip system. Dip into our palette to create natural, beautiful looks that last.

To soften the immediate micropigmentation effect, we have developed unique Derma Safe pigment masks. Applied like regular makeup directly after the treatment, the mask conceals the temporarily strong color contrasts and allows your client to bridge the healing period of 2-3 days – for immediate satisfaction and natural beauty.

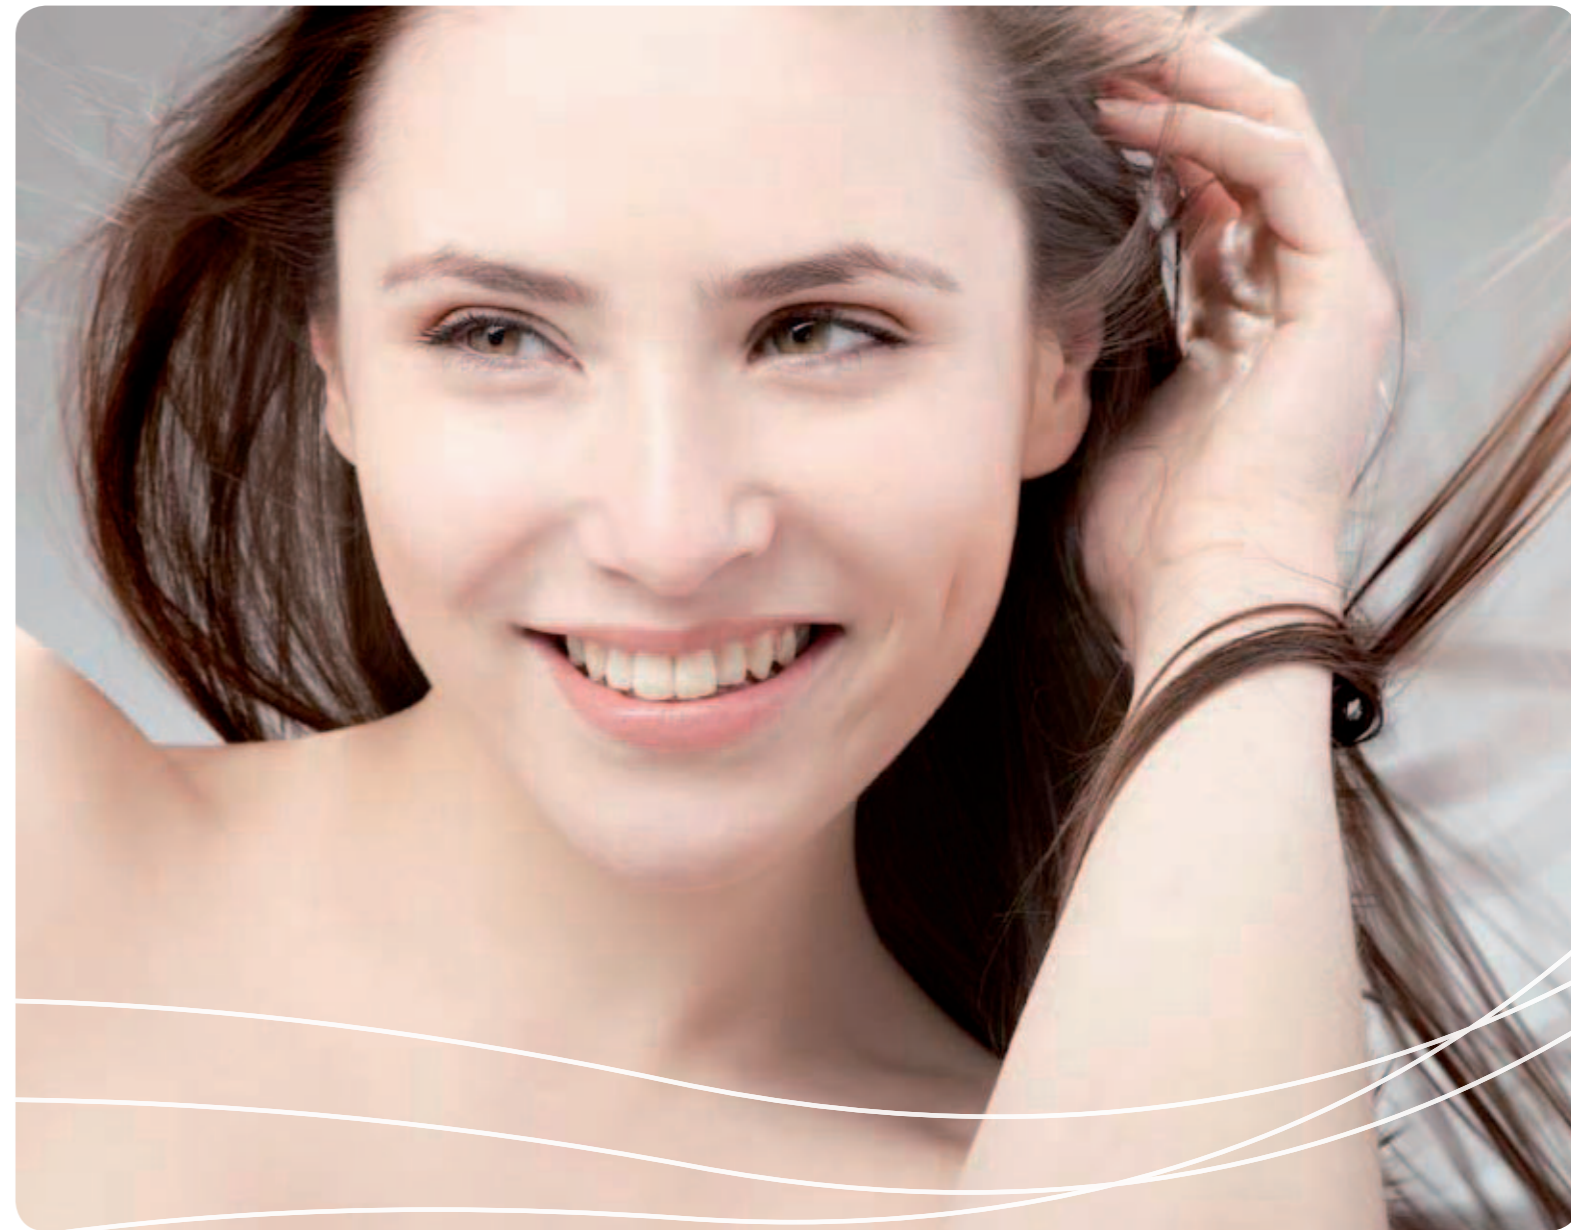

CERTIFIABLY GOOD

The more effort we take to make our products safe and simple, the easier you can work with them. That's why we apply exacting standards to all our products and developments. Our commitment to excellence has been tested and approved numerous times.
